What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.

What is an outdoor Telecom cabinet?

An outdoor telecom cabinet protects the cables and equipment that process and reroute information for our communication needs via the internet, television, and other applications. These enclosures include organizing racks and thermal management systems, among other features. What is a fiber cabinet?

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.
