This IP65-rated mini telecom shelter is specifically designed for 5G base stations and outdoor communication nodes. Featuring dual air conditioning units, it ensures efficient thermal management ...

Upgrade 5G base station power in outdoor, indoor, and shared cabinets with custom rectifier module solutions for efficient, scalable, and reliable performance.

These 5G outdoor cabinets provide superior protection from intense heat, heavy rains, and freezing temperatures. Simply stated, the 5G-LTE is superior engineering at its finest.

This IP65-rated mini telecom shelter is specifically designed for 5G base stations and outdoor communication nodes. Featuring dual air conditioning units, it ensures efficient thermal ...

With a weatherproof and corrosion-resistant structure, this cabinet ensures reliable protection for base station hardware such as RRUs, BBUs, and power modules. It features efficient thermal ...

These cabinets are designed with sealed structures, corrosion-resistant materials, and advanced thermal management systems that effectively regulate temperature and humidity within the ...

Designed for long-term reliability, it provides a controlled and secure enclosure that ensures stable operation for base stations, transmission nodes, and edge network systems exposed to demanding ...

This series features fully enclosed heat exchanger outdoor cabinets with sealed design and efficient thermal management. Engineered to withstand extreme environmental conditions including high ...
