It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

The IP55 protection level adapts to the harsh outdoor environment, which is perfectly suited to the needs of industrial and commercial energy storage.

Our power solutions maximize power density and flexibility through their compact design, fitting perfectly into either 19" or 23" racks with multiple depth options ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Both the 300kW & the 500kW enclosures have optional PV MPPT input making it easier and quicker to complete your renewable energy project. Multiple functionality modes allow simple ...

It offers max 500kW power capacity and supports max 4 sets of 215kWh IBS215K1KC battery cube access to achieve max 860kWh battery energy capacity. Max 4 sets can work in parallel to reach ...

Our mid-tier Battery Energy Storage Systems (BESS) reduce generator run time which decreases the fuel consumption and noise on site, helping you save on both emissions and on costs. ...
