Wien Energie is using innovative ideas to help shape the energy system of the future. Learn more about our showcase projects here.

Wien Energie has laid plans to acquire two wind farms and a solar park from the ImWind Group in Lower Austria and Burgenland. The three parks have a total capacity of 130 ...

Summary: This article explores the pricing dynamics of energy storage power stations in Vienna, focusing on market trends, cost drivers, and industry applications. We'll analyze key data, compare ...

Summary: Vienna is emerging as a leader in photovoltaic energy storage projects, combining solar power with advanced battery systems to build a resilient and eco-friendly energy grid. ...

With the purchase of two wind farms and a solar park from the ImWind group in Lower Austria and Burgenland, Austria's largest energy supplier will increase its wind power capacity by ...

Austria's largest regional energy provider expanded its green electricity portfolio with approximately 70 new photovoltaic systems, a new hydroelectric power plant, and the ...

Vienna's commitment to climate neutrality by 2040 has fueled investments in innovative photovoltaic energy storage projects. With rising solar adoption and fluctuating energy demands, the city is ...

With the purchase of two wind farms and a solar park from the ImWind group in Lower Austria and Burgenland, Austria's largest energy supplier will increase its wind power ...
