What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

What is E-Energija group's Vilnius Bess?

The Vilnius BESS is designed to address these dynamics, ensuring a reliable energy supply for consumers. E-energija Group's initiative reflects a practical approach to integrating renewable energy into Lithuania's grid, with the system set to play a vital role in balancing supply and demand once operational.

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately ...

The project, located near the capital city of Vilnius, is expected to be operational by the end of 2025. Gediminas Uloza, Chief Executive of E-energija Group, highlighted the ...

The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025. The BESS will provide balancing services to the grid, ...

Energy cellswill install and integrate into Lithuania's energy system a system of four energy storage facilities (batteries) with a total combined capacity of 200 megawatts (MW) and 200 megawatt-hours ...

Feb 26, 2025 · E-energija Group has started building Lithuania's largest battery energy storage system (BESS), known as the Vilnius BESS, with a capacity of 120MWh.

The energy storage facility system of 312 battery cubes - 78 each in battery parks in Vilnius, Siauliai and Alytus and Utena regions - will provide Lithuania with an instantaneous energy ...

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected
