Based in Switzerland, we manufacture waterproof outdoor cabinets and PV energy storage cabinets designed for Poland's climate, grid requirements, and EU compliance.

We specialize in advanced photovoltaic energy storage solutions, providing high-efficiency battery cabinets designed for reliable, sustainable, and clean energy.

When BYD Energy Storage and Portugal's Greenvolt Group inked Poland's largest-ever energy storage cabinet project in March 2025, they weren't just signing papers - they were solving a real-world ...

Ever wondered how Poland keeps its lights on during those bone-chilling -20°C winters? The answer might surprise you - it's not just about coal anymore. Enter the Polish power grid energy ...

Future-Proofing Energy Infrastructure As we approach 2025, the distributed storage market is projected to grow at 28% CAGR. The latest cabinets now feature:

Discrete energy storage cabinets are standalone units designed for specific applications, providing modular and scalable energy storage solutions. Combined energy storage cabinets integrate multiple ...

Distributed energy storage systems are becoming essential infrastructure in Poland's energy transition. From industrial load management to renewable integration, these solutions offer both economic and ...

When exploring the Energy Storage industry in Poland, several key considerations come into play. The country is undergoing a significant energy transition, driven by the European Union's climate goals ...
