What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Does WEC rail offer bespoke cabinets?

WEC Rail offers bespoke cabinets especially for mobile environments; the cabinet dimensions can be altered to cater for unique location difficulties, enabling the available space to be used to full effect. Products are available in a selection of colours, and are available on a short lead time basis.

What are outdoor cabinets used for?

Our outdoor cabinets are widely used in telecommunications, signaling, traffic control and test & measurement applications. Combine various standard components to create an outdoor enclosure that meets your needs. Configure Now! Our outdoor rack and outdoor enclosures feature robust protection against rain, snow, dust, hot sun & vandals.

Can a train cabinet be fully wired?

These standard cabinets include an extensive range of hardware and can even be fully wired and terminated to suit customer requirements. On-board the train there are many electrical systems which require housing capable of withstanding extreme conditions.

This guide will explain the difference so you'll know which term to look for in clothing, building materials, or electronics. In general, waterproof connotes that a material is impervious to...

The meaning of WATERPROOF is impervious to water; especially : covered or treated with a material (such as a solution of rubber) to prevent permeation by water.

WEC Rail offers bespoke cabinets especially for mobile environments; the cabinet dimensions can be altered to cater for unique location difficulties, enabling the available space to be used to full effect.
