Did Chinese inverters have unauthorized communications equipment?

Solar Panels Cordon Press. U.S. energy officials have found "unexplained" communications equipment inside some Chinese-made inverter devices, according to a report by Reuters published Wednesday. The document reveals the presence of unauthorized and fraudulent communication devices in several Chinese-made solar power inverters.

Are Chinese power inverters a threat to US energy?

In the wake of the revelation, U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in the country's renewable energy infrastructure. Power inverters, produced primarily in China, are used around the world to connect solar panels and wind turbines to the power grid.

Are Chinese solar power inverters Rogue?

However, rogue communication devices not listed in product documents have been found in some Chinese solar power inverters by U.S. experts who strip down equipment hooked up to grids to check for security issues, the two people said.

Did Chinese Inverter Batteries contain undocumented cellular radios?

Undocumented cellular radios were also found in some batteries from China. Solar Panels Cordon Press. U.S. energy officials have found "unexplained" communications equipment inside some Chinese-made inverter devices, according to a report by Reuters published Wednesday.

We have a broad product line dedicated to providing comprehensive solutions for intelligent energy management for home, industrial and commercial ...

The two people declined to name the Chinese manufacturers of the inverters and batteries with extra communication devices, nor say how many they had found in total.

Cell towers, business parks, campuses, data centers, strip malls, sports stadiums, oil fields, wind farms, solar fields, lift stations, utility sub stations and traffic systems all rely on our ...

Solar telecom cabinets work well in faraway places, keeping communication running without regular power. Their design is easy to upgrade, so they can handle new tech like 5G.
