How many solar panels are in Monterrey?

Part of an \$18 million plant expansion investment, the newly installed solar panel array is the largest project of isolated battery-powered supply in Mexico. In total, close to 10,000 panels have been installed across Monterrey's three plants, with plans to be producing energy in 2024.

Why is Trane Monterrey a sustainable facility?

As extreme drought and rising temperatures result in increasing restrictions on water and energy use in Monterrey City, Mexico, the team at our Trane Monterrey facility is leading the way to create sustainable solutions for its operations.

Why is energy storage important?

In an environment where renewable energy procurement and energy efficiency are top priorities, understanding the role of energy storage is vital for energy procurement managers, multinational companies, and sustainability engineers operating within Mexico.
