What is Harava solar power station?

The Harava Solar Power Station, is a 20 megawatts (27,000 hp) solar power plant under construction in Zimbabwe. The project is owned and under development by Harava Solar Limited and entity owned by the Seke Community, in partnership with the Government of Zimbabwe.

Who is Harava solar?

The power station was developed by a special purpose vehicle company, Harava Solar Limited, specifically set up to develop, build and operate this solar power station. Harava Solar is a joint venture between the Seke Community and the Zimbabwean Ministry of Energy and Power Development.

Why is Harava solar removing steel pipes from a power station?

Harava Solar is counterclaiming material (steel pipes) removed from the site by the subcontractor's officials, when payment was not forthcoming. Work on the power station stalled in 2021.

We now have some that have commissioned their solar PV plants and are now feeding into the national grid. The latest one is Centragrid's 25 MW solar power plant in Nyabira, just outside...
