What is a Bess project?

Pioneered and initiated several BESS portfolios in Canada. Develops most of Alberta's utility-scale BESS projects. Sturgeon Storage Project is a 23-megawatt lithium-ion battery energy storage system that will be independently connected to Alberta Connected Power System (AIES) and scheduled by Alberta Electric System Operator (AESO).

Why is BC Hydro launching a 'Luna Bess' project?

Demand for products like the Luna BESS is rising as a result of incentives like BC Hydro's Energy Storage Incentive Program, which reimburses qualified firms for up to 90% of project expenses.

Are Troes Bess systems compliant?

Equipped with a proprietary three-layer control system, All TROES BESS systems are fully compliant with Canadian and provincial electrical codes, environmental standards, and safety regulations. Our fully integrated systems combine hardware, software, and intelligent controls --offering a true turnkey solution for mid-sized microgrids.

Moment Energy declared that its manufacturing facility in Metro Vancouver, British Columbia, is now operating at full capacity, supplying its ...

The facility produces the Luna BESS, a modular system scalable to 10 MWh that transforms repurposed batteries into high-performance energy storage for commercial and ...

Port Coquitlam, BC, July 17, 2025--Moment Energy announced that its Metro Vancouver, BC manufacturing hub is now in full-scale production, delivering its flagship battery energy storage ...

Moment Energy declared that its manufacturing facility in Metro Vancouver, British Columbia, is now operating at full capacity, supplying its flagship battery energy storage systems ...

Canadian battery storage startup Moment Energy has begun full-scale manufacturing at its Metro Vancouver facility, producing modular battery energy storage systems (BESS) built from ...

Moment Energy, a Canadian firm that repurposes electric vehicle (EV) batteries to make energy storage systems, has reached full-scale ...
