What is included in a Bess system?

A complete BESS includes a high-voltage battery pack, bi-directional inverter (PCS or hybrid PCS with solar input), energy management system, air conditioner and fire suppression system. The components are housed in a tamper-proof, weather-proof shipping container. The REVOV BESS uses superior lithium iron phosphate (LiFe PO4) battery technology.

How much power does a Bess have?

The BESS is available in 20ft or 40ft container sizes. The range includes: Battery &PCS (incl Transformer) with a storage capacity range of 0.5 - 3 MWh. Output power range between 0.25 - 1.5MW. Battery &PCS (excl Transformer) with a storage capacity range of 2.2 - 4.9MWh. Power output range between 1 - 2.25MW.

What is a Bess battery?

SolarMD's BESS units are fully assembled, tested, and pre-commissioned, ensuring quick and seamless integration into your energy system. Built with premium materials and cutting-edge technology, these batteries offer a prolonged lifespan >7000 cycles, reducing the need for frequent replacements.

Can a Bess be integrated with a PCs?

The BESS can be integrated with various PCS options from leading manufacturers, with output power starting from 250 kW - 2.25MW. Solar MD will work with you to select the PCS that best suits your application and grid connection requirements. Can the BESS be integrated with other energy sources?
