What is a 47U rack?

With internal depths from 600-1200mm, these 47U racks are designed to house standard 19 inch rack mountable devices using slide rails, shelves or trays. Additional cabinet options cover lockable front and rear door types, cable management and blanking plates for efficient air flow management.

What is a SmartRack®; 47U server rack?

This SmartRack®; 47U server rack is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment. It is 800 millimeters wide to allow more room for cable management and PDU mounting along the sides of the rack, which permits free front-to-rear airflow.

How does a 47U server cabinet work?

This 47U server cabinet comes fully assembled for quick and easy deployment with pre-installed casters that let you maneuver it over a level, smooth, stable surface and through a standard two-meter doorway into position, where it can be stabilized by adjusting the levelers.

How do I choose a 47U rack or cabinet?

When selecting a rack or cabinet there are several factors to consider. A 47U rack or cabinet can house equipment whose total height when placed into the rack is no more than 2.09m. Care therefore has to be taken when selecting a rack to make sure that the cabinet height is sufficient to house the IT server, networking peripheral or IoT device.
