The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh battery ...

The latest Africa Energy Report (2024) shows solar and wind contributing just 3% to the national grid - but here's the kicker: Yamoussoukro's positioned to flip this script through strategic energy storage ...

It has 9.4GW of energy storage to its name with more than 225 energy storage projects scattered across the globe, operating in 47 markets. It also operates 24.1GW of AI-optimised renewables and storage, ...

This article explores innovative solar storage solutions, regional case studies, and emerging opportunities for industrial/commercial users seeking reliable power infrastructure.

200 GW of energy storage is currently seeking interconnection! The rapid increase of BESS and hybrid projects on the bulk power system (BPS) warrants a look at where this technology started and how it ...

This 150MW/300MWh facility - comparable to powering 90,000 homes daily - combines cutting-edge lithium-ion batteries with solar hybridization, making it a blueprint for renewable energy integration ...

As Côte d'Ivoire's political capital transitions toward renewable energy, customized energy storage systems are becoming vital for power stability. This guide explores how adaptive battery solutions ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's globally acclaimed ...
